3.1	Main menu to horizontal	3

1 Requirements

1.1 Software requirements

In order to start collecting information with our module, you will need:

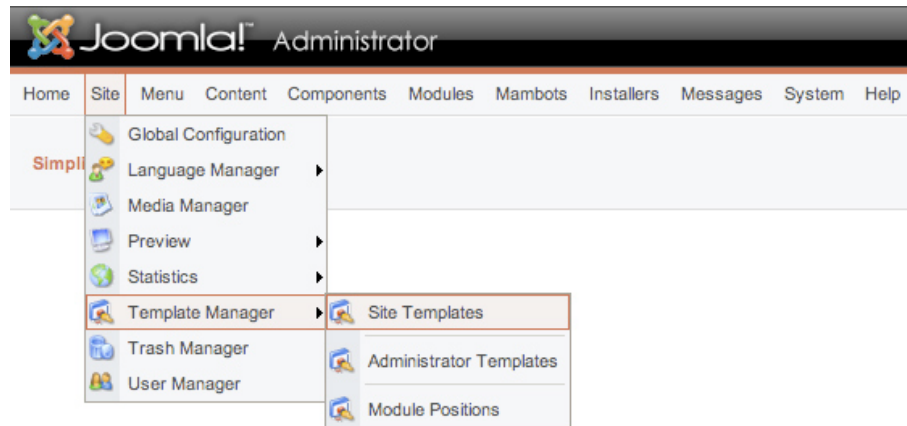

- Joomla cms 1.0.X installed

1.2 Other knowledge

- You know, what is a Joomla!. You probably are an administrator and you know, what is a template. You have the ability to install and uninstall templates in your Joomla! system.

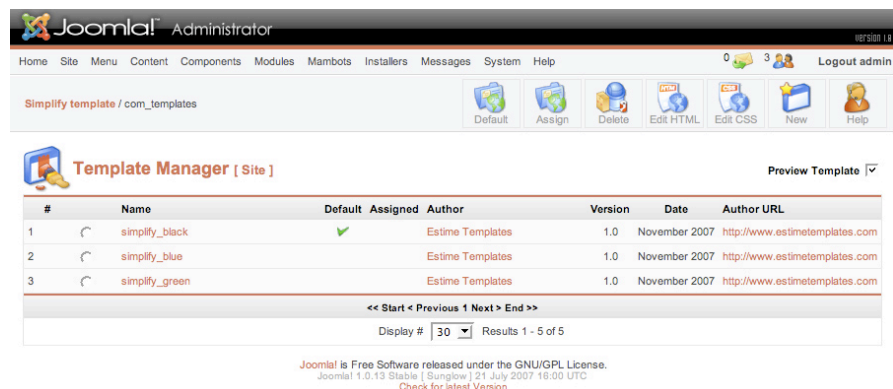

2 Installing the template

1. Login to your Joomla! Backend.
2. Choose Site ► Template manager ► Site templates.

Picture 1. Site – template manager menu

3. Press New button on the top right corner of the page.

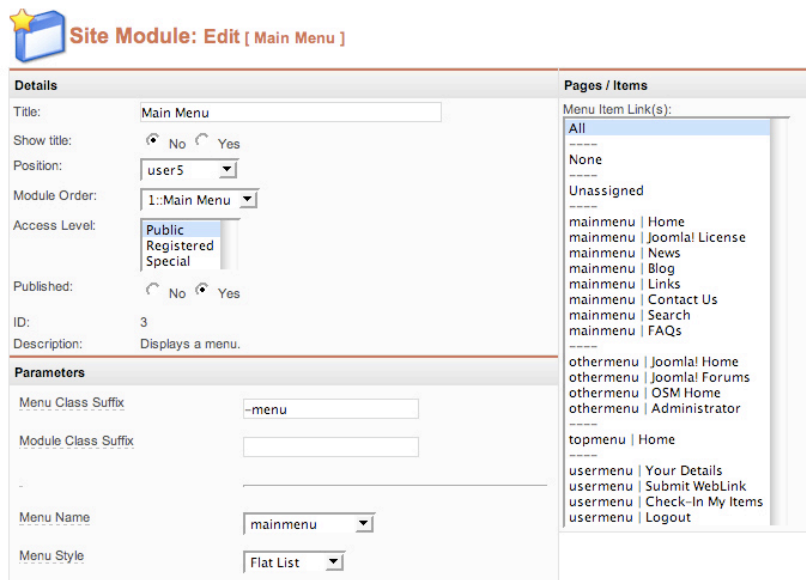

Picture 2. Basic template list view.

4. Press *Browse* button and find the zip file you have downloaded from <http://www.estimetemplates.com>.
5. Press *Upload file and install* button.
6. Template has been installed. You are ready!

3 Modifications

3.1 Main menu to horizontal

1. Choose Modules ► Site modules.
2. Find Main menu in the list.
3. Make sure you have set Menu Class Suffix style to **-menu** and Menu Style to **Flat List**.
